## Profile Summary

With 1 year of testing experience and 3 years in development at Accenture, I specialize in crafting Informatica mappings, SAP Callidus rules, plans, titles, and essential components to enhance payment processes. Skilled in Sap HANA, Oracle SQL and PLSQL, I spearhead effective functional testing and Powercenter optimization. I possess expertise in GCP, Google Data Engineering, and SAP Success Factor. With a solid telecommunications background, I am primed to utilize my skills in a dynamic setting. Eager to apply my proven track record in application development and technical proficiency to drive success in new opportunities.
